WAS A GRAND SUCCESS

WALLA WALLA SECOND

Pendleton Beats Heppner in Ball Game—
Racing Contests Were all Very
Fine Exhibitions.

The three days tournament of
the Eastern Oregon and Washing-
ton Firemen's Association, which
closed in this city today, was a
meeting of which Heppner and
the association should feel proud.

Owing to a misunderstanding of
the train service, the visiting teams
did not get here as advertised on
Monday evening, but came on
Tuesday evening, which made an
unavoidable change in the original
program.

While there was no racing on
Tuesday, the ball game between
Heppner and Pendleton made up
for the omission in the program.

It was acknowledged by all to
be the best game ever played in
Heppner. While the home team
met defeat, and the first for the
season, the boys put up such a good
game that the result was not so
disappointing.

Pendleton came with an excep-
tionally strong team. They came
with the pick of the best players
that could be secured in Eastern
Oregon.

At no time during the swift and
exciting game was the result very
sure for either side. It was a
beautiful amateur game. In fact
the exhibition was almost up to
the standard of professional league
playing.

Pendleton's advantage was in
the batting. The game was won
by a few sledge hammer hits that
fortunately for them landed in a
safe spot.

A very interesting feature of the
game was the good battery work
by both teams.

Dunbar, pitcher of the home
team has a wonderful quick deliv-
ery of the ball. His steady and
level headed work kept the visit-
ors guessing. There is no grand
stand play about his playing, and
the batter that is always ready for
him must attend strictly to busin-
ess.

Chapler, the Pendleton pitcher
is very speedy. His delivery was
like a whirlwind. His arm seemed
to be in extra trim, for the sphere
went like a bullet, and the beauty
of it was that it usually twisted in
over the plate.

Both pitchers were well support-
ed. Neither team scored until the
fifth inning.

The Pendleton boys admitted
that they played an extra good
game and were favored with good
luck.

At the close of the game the
score stood five to two in favor of
Pendleton.

THE RACES.

Wednesday was a very interest-
ing day. While the attendance

was large the first day, there was
a big increase of visitors on Wed-
nesday.

The worst feature of the day
was the weather. It was murky
and cold. A great many people
wore overcoats. The contesting
firemen after being stripped for
the races stood around and shiv-
ered.

There was no hippodrome in
any of the contests. Every team
was out to win.

The first horse race, dry test was
pulled off in the forenoon. All of
the four teams entered.

The races were pretty and ex-
citing. The result was:

Waitsburg, 1st. Time 22 4-5.
Walla Walla, 2d. 23.
Heppner, 23 2-5.
Dayton, 24 4-5.

As soon as the official time was
announced there was a deafening
roar from the Waitsburg contin-
gent and friends of the fleet visit-
ors. The boys felt very jubilant
over their victory. It was hard
earned.

Walla Walla in getting second
prize made a fine run, coming in
only one fifth of a second slower
than Waitsburg. They were the
recipients of much applause over
the victory.

Heppner boys were a close third.
They made a pretty run. The
home pulled the heaviest cart in
the aggregation, which of course
was quite a handicap.

The Dayton boys came in fourth. Fol-
lowing are the prizes:

Dry test, first prize \$80, second prize
\$40.

Following the horse race came the 100-
yard foot race. First prize \$25, second
\$10.

This prize was carried off by Pearson
of Dayton, with Frank Natter of this
city, a close second. There were eight
starters and they made a swift race.

In the afternoon came the horse race,
wet test. This was not so much of a
success as the racing in the forenoon.

Dayton appeared on the speedway
first, and after making a good run, failed
to make the required attachments at the
hydrant, consequently were not given a
place.

Heppner boys came next like a cy-
clone. They had everything their own
way in this race, until the water reached
the nozzle. Here was a great disap-
pointment. The nozzle blew out by
some hitch. This shut out the home
team.

Walla Walla secured the first prize in
this race. They went through without
a break and had a stream of water in
34 2-5 seconds.

This left second prize very easy game.
There was no competition. It was just a
walk down, however Waitsburg just got
inside the limit of 40 seconds in getting
the prize.

In the contest the prizes were given
as in the dry test.

The 200 yard foot race for firemen
only closed the contests for Wednesday.
This race was also run by Pearson of
Dayton.

In the evening there was a grand ball
at the opera house, which was well at-
tended.

Thursday, the last day of the tourna-
ment opened up with a bigger attend-
ance than on any previous day. The
forenoon was occupied by the hub and
hub or speed race. This was a very ex-
citing contest.

Waitsburg and Dayton appeared first.
At the crack of the pistol away went
both teams like the wind. Waitsburg
crossed the line with a good lead in
23 2-5 seconds.

Next came Heppner and Walla Walla.
For some unknown reason Heppner
made a bad start, getting off behind.
It was a neck and neck race from start
to outcome. Walla crossed the line by
a small lead in 23 1-5.

This left Waitsburg and Walla for the
final decision. They got a pretty start
and made a whirlwind run, Waitsburg
winning in 23 flat.

This report includes all of the contests
up to the time of going to press today.

WAYSIDE NOTES.

All are pleased with the tournament.
It has been a great success.

The Heppner Symphony band stand
on Garrison's awning was a good loca-
tion. The band furnished most excel-
lent music every day during the tourna-
ment which added much to the enter-
tainment.

The town was elaborately decorated.
L. W. Levy who had charge of the decora-
tions has demonstrated that he is an
artist in his line. His good taste and
the fine material which he used made
the buildings very attractive.

The Gazette is pleased to make a
note of the splendid service of the Hepp-
ner Light and Water Co. The tourna-
ment has shown that the company is
certainly very careful in keeping their
fine system in first class order. Not a
word of complaint was heard about the
pressure. There was no end to the
water supply. It is certainly gratifying
to the people of Heppner to know that
at all times there is plenty of water with
high pressure, thus affording splendid
fire protection.

Scott's
Emulsion

of Cod Liver Oil is the means
of life, and enjoyment of life to
thousands: men women and
children.

When appetite fails, it re-
stores it. When food is a
burden, it lifts the burden.

When you lose flesh, it brings
the plumpness of health.

When work is hard and
duty is heavy, it makes life
bright.

It is the thin edge of the
wedge; the thick end is food.
But what is the use of food,
when you hate it, and can't di-
gest it?

Scott's Emulsion of Cod
Liver Oil is the food that makes
you forget your stomach.

If you have not tried it, send for
free sample. Its agreeable taste will
surprise you.

Heppner Bales Wool to Warm the World.
Last year it shipped away 1,345,750 pounds, and
Morrow County raised 925,000 pounds of wool
in 1900.

Morrow County's climate is most excel-
lent and you can buy farms and ranches
here cheaper than anywhere else on earth or in
all Oregon. Population 5000.

There are vacant government lands, timber,
foothill and prairie, and land may be bought
at \$1.25 to \$10 an acre.

Morrow County has 363,535 sheep, and the
Heppner Warehouse now contains 2,000,000
pounds of wool.

STOCK AND
WOOL NOTES

Joe Luckman sold 10,000 pounds
of wool Friday at 10 cents per
pound.

N. S. Whetstone sold 14,000
pounds of wool Friday at 10 cents.

George Perry sold his lot of
wool Thursday.

Thursday Mrs. Kilcup sold 16,
000 pounds of wool at 10 cents.

A. Andrews sold 35,000 pounds
of wool Friday at 8 1/2 cents.

Scharf Bros. of Monument have
sold their clip of 35,000 pounds of
wool at 10 1/2 cents.

Duncan McRae, of Antelope,
Friday sold his two crops of wool
stored at the Moody warehouse in
The Dalles for 1 1/2 cents a pound.

T. S. Hamilton, of Ashwood, Crook
county, is in the city, the guest of
the Umattilla House. Friday Mr.
Hamilton sold his last year's clip
of wool and a couple of other clips
entrusted to his care by neighbors
at prices ranging from 11 to 11 1/2
cents a pound.—Dalles Chronicle.

During the past week ten clips
of wool stored in the Shaniko
warehouse were sold at prices rang-
ing from 11 to 11 1/2 cents. Several
other clips not yet in have been
contracted for at the same prices.
—Shaniko Leader.

The Shaniko Leader says T. A.
Connelly, of Sherar's Bridge, sold
his clip of wool in Shaniko last
Tuesday for 11 1/2 cents a pound.
This is said to be the top price of
the season.

S. A. Heilner, of Baker City,
sold all of his wool Friday which
he bought last year and this, over
500 sacks, or about 175,000 pounds,
at a figure which averaged 9 1/2 cents
per pound. This is the largest
sale of wool ever made in Eastern
Oregon. This deal breaks the pro-
posed woolgrowers' combine, which
it was proposed to form at a meet-
ing of the growers of Eastern Ore-
gon to be held at Baker City early
in July. The wool was sold to
Eastern dealers.

Nearly half a million pounds of
wool have been sold at Pendleton
in the past week. Prices have
ranged from 8 to 10 1/2 cents per
pound. Probably 75 per cent of
the total was of the more valuable
quality. Every warehouse in the
town is filled, and wool continues
to pour in from various points in
Eastern Oregon, Washington and
Northern Idaho. It is agreed that
the quality of the wool this year
is first-class. The fibre is even and
the staple long, this being due to
the excellent weather conditions
that have prevailed during the
growing season, as well as to the
fine food available for the sheep.
The indications are that the amount
of wool handled here this year will
exceed that of any previous year.
Already about 4,000,000 pounds
have been bought and the season
for buying has hardly opened. Im-
mense quantities of wool are yet
to be disposed of in the region
tributary to Pendleton. The scour-
ing mill house and the Furish
warehouse are putting on extra
forces of men to handle the volume
that is pouring in upon them.
